

Westermo Certified Engineer Training

- Part 1

This three days Workshop for end users, sales or support engineers focuses on building robust and redundant networks with Westermo products. During the exercises different ways and methods to troubleshoot are used.

A Westermo Certified Engineer will be more effective at solving network problems and also be able to provide better support for their installations. On completion of the course and examination a certificate will be issued.

- ⌘ 14-28 days before course starts, 50% of course fee will be repaid
- ⌘ <14 days before course starts, no course fee will be repaid

Transfer/change of participant may be done without any penalty until course start.

Course postponements:

At times, we must change a course date, or postpone a course. We will try to give the customer as much advance notice as possible of any such change. If the customer is unable to attend a course at the revised location or date, we will credit 100 % of any prepaid course tuition fees paid against a future course or, if requested, refund those fees. However, we will not be liable for any other costs incurred including (for example) travel charges or any consequential damages, even if we were advised of them.

Ownership & Liability:

- ⌘ The course material for all the Westermo training is the property of Westermo and is intended for the sole use of the person registering for the course.
- ⌘ Reuse of any material is forbidden without the written approval of Westermo.
- ⌘ Westermo cannot be held liable for any inaccuracies or errors in the information provided.
- ⌘ Westermo accept no liability or responsibility to any person or entity with respect to any loss or damage alleged to have been caused, directly or indirectly, by the information, ideas, opinions or other content of the course.
