

Westermo Certified Engineer Training

- Part 2

This three days Workshop for end users, sales or support engineers focuses on services in WeOS. During the exercises different ways and methods to troubleshoot are used. WeConfig, a Westermo configuration tool, will be used in a network implementation exercise where also design issues will be discussed.

A Westermo Certified Engineer will be more effective at solving network problems and also be able to provide better support for their installations. On completion of the course and examination a certificate will be issued.
